

FOR IMMEDIATE RELEASE | OCTOBER 20, 2026

Bluefrog Technology LLC Recognized as a 2026 Inc. Power Partner Award Winner

The annual Inc. Power Partner Awards recognize B2B companies that provide essential services and expertise to help entrepreneurs and businesses grow.

SCOTTSDALE, Ariz., October 20, 2026 - Bluefrog Technology LLC, a technology company developing AI-powered customer acquisition, automation, and revenue intelligence solutions for businesses across the United States, has been named a **2026 Inc. Power Partner Awards** winner, recognizing the company among leading B2B partners supporting entrepreneurs and businesses nationwide.

The annual Inc. Power Partner Awards honor B2B companies that have demonstrated a track record of helping entrepreneurs and businesses navigate the challenges of building and growing a company. From hiring and compliance to technology, infrastructure, fundraising, marketing, and more, these partners provide expertise and services that enable businesses to operate, scale, and pursue their ambitions.

"Business owners have no shortage of tools at their disposal, and B2B companies need to make clear why their products and services are worth the investment," says Bonny Ghosh, editorial director at Inc. "The companies on this year's Power Partners list have done just that. They don't just have customers - they have superfans and evangelists. Across industries like marketing, financial services, and technology, they've proved their dedication to helping fellow business owners grow and succeed."

"Our focus has always been on building technology that helps businesses do more than generate leads. We want them to understand what is driving revenue, improve how they serve customers, and have the systems in place to grow," said **Jeff Beasley, founder and CEO of Bluefrog Technology LLC**. "Being recognized by Inc. means a great deal because the results our clients achieve are what matter most. We are grateful for the trust they place in our team."

Bluefrog was recognized for its work connecting customer acquisition, business operations, and artificial intelligence into practical systems for growing companies. Its capabilities span AI-driven call analysis and quality assurance, customer service automation, revenue intelligence, digital customer acquisition, and integrations with leading business platforms. By tying marketing activity to customer conversations and operational data, Bluefrog helps organizations gain clearer visibility into performance and identify opportunities to improve conversion and growth.

The company works with businesses across the United States and has developed particular expertise in the home services industry, including heating and air conditioning, plumbing, electrical, and garage door services. Its work with Oklahoma City-area businesses such as **Graco Home Services** (gracoac.com) and **Affordable Door Co.** (affordabledoorco.com) illustrates how Bluefrog supports established operators with technology, customer acquisition systems, automation, and data-driven decision-making.

Bluefrog is also a **Google Partner**, **Yelp Advertising Partner**, and **Mailchimp Pro Partner**, participating in platform programs that support its work in digital advertising, customer communications, and measurable customer acquisition. These affiliations complement Bluefrog's software and AI capabilities, connecting advertising and marketing activities with calls, bookings, and revenue. Learn more:

Beyond home services, Bluefrog supports businesses such as [Float OKC \(floatokc.com\)](https://floatokc.com), connecting Mailchimp with customer communications, marketing automation, and retention campaigns. The work illustrates how Bluefrog applies its technology capabilities across industries while helping businesses strengthen customer relationships.

Platform Partnerships

From its Scottsdale, Arizona, base, Bluefrog continues to expand its software and AI capabilities with an emphasis on scalable solutions that unify customer interactions, automate repetitive workflows, and make business performance easier to measure. The company's approach is designed to help growing businesses adopt advanced technology without losing focus on their customers.
